

| 1 CONSULTATION WITH IVF SPECIALIST | | Price EUR |
|---|--|----------------|
| CONSULTATION with IVF specialist | Consultation with IVF specialist - 1 hour consultation with ultrasound Note: If the patient decides to undergo IVF treatment, this amount will be deducted from the price of IVF treatment | 100 € |
| 2 INTRAUTERINE INSEMINATION | | Price EUR |
| Intrauterine insemination (IUI) | Sperm analysis, sample capacity, sperm introduction into the uterus, stay at a care facility | 260 € |
| 3 NATURAL CYCLE IVF WITH EMBRYO TRANSFER | | Price EUR |
| Natural cycle IVF with embryo transfer | Consultations and ultrasounds during treatment cycle, hormone profile, treatment protocol, monitoring of IVF cycle, STD tests, egg retrieval under general anaesthesia, partner's sperm analysis, embryo culture within 48 hours, ultrasound-guided embryo transfer, stay at a day care facility | 1 000 € |
| Natural cycle cancelled before egg retrieval | Natural cycle cancelled before egg retrieval | 200 € |
| Natural cycle cancelled after egg retrieval | Natural cycle cancelled after egg retrieval | 500 € |
| Natural cycle cancelled before embryo transfer | Natural cycle cancelled before embryo transfer | 650 € |
| Above standard laboratory techniques | Extra laboratory techniques and cryopreservation will be billed according to the price list below | see price list |
| 4 MINIMAL STIMULATION IVF WITH EMBRYO TRANSFER | | Price EUR |
| Minimal stimulation IVF with embryo transfer | Consultations and ultrasounds during treatment cycle, hormone profile, treatment protocol, monitoring of IVF cycle, STD tests, egg retrieval under general anaesthesia, partner's sperm analysis, embryo culture within 48 hours, ultrasound-guided embryo transfer, stay at a day care facility | 1 400 € |
| Minimal stimulation cancelled before egg retrieval | Minimal stimulation cancelled before egg retrieval | 400 € |
| Minimal stimulation cancelled after egg retrieval | Minimal stimulation cancelled after egg retrieval | 600 € |
| Minimal stimulation cancelled before embryo transfer | Minimal stimulation cancelled before embryo transfer | 900 € |
| Above standard laboratory techniques | Extra laboratory techniques and cryopreservation will be billed according to the price list below | see price list |
| 5 COMPLETE IVF CYCLE WITH OWN OOCYTES | | Price EUR |
| Complete IVF cycle with own oocytes | Consultations and ultrasounds during treatment cycle, hormone profile, treatment protocol, monitoring of IVF cycle, STD tests, egg retrieval under general anaesthesia, partner's sperm analysis, fertilization using ICSI, assisted hatching, extended embryo culture, ultrasound-guided embryo transfer, stay at a day care facility | 2 500 € |
| Intralipid infusion | Intralipid infusion | 100 € |
| IVF cycle cancelled before egg retrieval | IVF cycle cancelled before egg retrieval | 750 € |
| IVF cycle cancelled after egg retrieval | IVF cycle cancelled after egg retrieval | 1 000 € |
| IVF cycle cancelled before embryo transfer | IVF cycle cancelled before embryo transfer | 1 600 € |
| Above standard laboratory techniques | Extra laboratory techniques and cryopreservation will be billed according to the price list below | see price list |

| 6 IVF CYCLE WITH DONATED OOCYTES – FRESH EMBRYO TRANSFER (ET) | | Price EUR |
|---|--|----------------|
| IVF cycle with donated oocytes - fresh ET | Consultations and ultrasounds during treatment cycle, treatment protocol, egg donor's bloodwork + genetic screening, donor's medication, monitoring of donor's cycle, donor's egg retrieval, donors' compensation, STD tests (HIV, Hep B, C and Syphilis) of male partner, ICSI, extended embryo culture, guarantee of 2 blastocysts, assisted hatching, partner's sperm analysis, ultrasound-guided embryo transfer including blood test for Progesterone level | 5 100 € |
| Above standard laboratory techniques | Extra laboratory techniques and cryopreservation will be billed according to the price list below | see price list |
| 7 IVF CYCLE WITH DONATED OOCYTES – FRESH EMBRYO TRANSFER (ET) – SPECIAL OFFER | | Price EUR |
| IVF cycle with donated oocytes - fresh ET - SPECIAL OFFER | Consultations and ultrasounds during treatment cycle, treatment protocol, egg donor's bloodwork + genetic screening, donors' compensation, monitoring of donor's cycle, egg retrieval under general anaesthesia, donor's compensation, STD tests (HIV, Hep B, C and Syphilis) of male partner, Fertilization via PICSI/Fertile chip, EmbryoScope, Embryogluue/UTM, extended embryo culture, assisted hatching (if applicable), guarantee 2 blastocysts, partner's sperm analysis, ultrasound-guided embryo transfer including blood test for Progesterone level, stay at a day care facility | 5 600 € |
| Above standard laboratory techniques | Extra laboratory techniques and cryopreservation will be billed according to the price list below | see price list |
| 8 FROZEN EMBRYO TRANSFER (FET) | | Price EUR |
| Frozen embryo transfer (FET) | Consultations and ultrasounds during treatment cycle, ultrasound-guided frozen embryo transfer including blood test for Progesterone level, stay at a day care facility | 700 € |
| Above standard laboratory techniques | Extra laboratory techniques will be billed according to the price list below | see price list |
| 9 FROZEN EMBRYO TRANSFER (FET) - DONOR EMBRYOS | | Price EUR |
| FET – transfer of 1 donor embryo | Consultations and ultrasounds during treatment cycle, donors' compensation, ultrasound-guided frozen embryo transfer including blood test for Progesterone level, guarantee of 1 blastocyst, stay at a day care facility | 1 600 € |
| FET – transfer of 2 donor embryos | Consultations and ultrasounds during treatment cycle, donors' compensation, ultrasound-guided frozen embryo transfer including blood test for Progesterone level, guarantee of 2 blastocysts, stay at a day care facility | 3 000 € |
| Above standard laboratory techniques | Extra laboratory techniques will be billed according to the price list below | see price list |
| 10 FROZEN EMBRYO TRANSFER (FET) OF DONATED GENETICALLY TESTED EMBRYOS PGT-A | | Price EUR |
| 1 FET after PGT-A | Consultations and ultrasounds during treatment cycle, donors' compensation, PGT-A Aneuploidy screening, ultrasound-guided frozen embryo transfer including blood test for Progesterone level, guarantee of 1 blastocyst, stay at a day care facility | 2 250 € |
| Above standard laboratory techniques | Extra laboratory techniques will be billed according to the price list below | see price list |
| 11 OOCYTE VITRIFICATION | | Price EUR |
| Oocyte vitrification | Consultations and ultrasounds during treatment cycle, hormone profile, treatment protocol, monitoring of IVF cycle, egg retrieval under general anaesthesia, eggs vitrification, storage of vitrified oocytes for 1 year, stay at a day care facility, STD tests | 1 950 € |

| 12 IVF CYCLE WITH VITRIFIED OOCYTES | | Price EUR |
|---------------------------------------|---|----------------|
| IVF cycle with vitrified oocytes | Consultations and ultrasounds during treatment cycle, hormone profile, partner's sperm analysis, STD tests (HIV, Hep B, C and Syphilis), oocytes thawing, extended embryo culture, assisted hatching (if applicable), ICSI, ultrasound-guided transfer including blood test for Progesterone level, stay at a day care facility | 1 750 € |
| Above standard laboratory techniques | Extra laboratory techniques and cryopreservation will be billed according to the price list below | see price list |
| 13 EXTRA LABORATORY TECHNIQUES | | Price EUR |
| ICSI 1-6 oocytes | Each oocyte in range of 1 - 6 oocytes (applies for "NATURAL CYCLE IVF WITH EMBRYO TRANSFER" and "MINIMAL STIMULATION IVF WITH EMBRYO TRANSFER") | 70 € |
| ICSI 7-15 oocytes | Total price for 7 - 15 oocytes | 450 € |
| ICSI over 15 oocytes | Surcharge for number of oocytes above 15 | 230 € |
| PICSI | In addition to ICSI (applies for "COMPLETE IVF CYCLE WITH OWN OOCYTES") | 230 € |
| PICSI | 1 oocyte fertilization price (applies for "NATURAL CYCLE IVF WITH EMBRYO TRANSFER" and "MINIMAL STIMULATION IVF WITH EMBRYO TRANSFER") | 100 € |
| Assisted hatching | Releasing of the embryo from Zona pellucida before embryo transfer | 200 € |
| Embryogen / Blastgen | Embryos cultivation in media supporting endometrium-embryo communication (additional payment to extended cultivation) | 200 € |
| EmbryoScope | Continuous monitoring of embryos | 250 € |
| Embryoglu / UTM | Embryos implantation support medium | 230 € |
| Intralipid infusion | Intralipid infusion | 100 € |
| Embryo cryopreservation | First 2 straws (1 or 2 embryos in each straw), storage for 1 year | 300 € |
| Additional cryopreservation | Each additional straw | 80 € |
| Sperm cryopreservation | First 2 straws of sperm, storage for 1 year | 200 € |
| Additional cryopreservation | Each additional straw of sperm | 80 € |
| Storage without STD tests | Embryos / oocytes / sperm storage without STD tests (or if tested positive for STD), storage for 1 year | 300 € |
| STD tests | Sexually transmitted diseases testing | 100 € |
| SPG | Sperm analysis | 50 € |
| DNA fragmentation | Sperm DNA fragmentation test | 150 € |
| Acrosomal integrity | Analysis of acrosomal integrity | 60 € |
| MACS | Magnetic activated cell sorting | 300 € |
| Zymot MULTI | Sperm separation using microfluidic chip Zymot Multi (Fertile Plus) | 200 € |
| Zymot ICSI | Sperm separation using microfluidic chip Zymot ICSI (Fertile) | 250 € |
| MESA / TESE | Microsurgical sperm retrieval from testicle | 750 € |
| General anaesthesia | General anaesthesia | 150 € |
| Donor sperm | Donor sperm | 350 € |
| Storage extension | Storage extension of cryopreserved embryos / oocytes / sperm for 1 year | 150 € |
| PML | Examination of oocyte maturity by polarization microscope | 200 € |
| Hotel room | Hotel room for sperm collection for 1 hour | 50 € |

| 14 PREIMPLANTATION GENETIC DIAGNOSIS AND SCREENING | | Price EUR |
|--|--|------------------|
| PGT-A preimplantation genetic testing 1emb. | PGT-A Aneuploidy Screening for 1 embryo, including trophectoderm biopsy | 600 € |
| PGT-A preimplantation genetic testing +emb. | PGT-A Aneuploidy Screening for each additional embryo, including trophectoderm biopsy | 350 € |
| PGT-M Preimplantation genetic testing | PGT-M Preimplantation genetic testing for monogenic/single gene diseases | Individual price |
| 15 GENETIC TESTING OF FROZEN EMBRYO - RECRYOPRESERVATION | | Price EUR |
| Recryopreservation 1FE | Thawing of 1-2 embryos, biopsy for PGT-A, genetic testing, recryopreservation of embryo(s), storage for 1 year | 800 € |
| Recryopreservation +FE | Thawing of each additional embryos, biopsy for PGT-A, genetic testing, recryopreservation of embryos, storage for 1 year | 400 € |
| 16 TRANSPORT OF HUMAN CELL | | Price EUR |
| Administration | Administration fee for transport of human cell | 200 € |
| Import | Import of sample to our clinic/export of sample from our clinic | Individual price |
| 17 OPERATING ROOM | | Price EUR |
| Surgical Hysteroscopy | Surgical Hysteroscopy | 700 € |
| HyFoSy | HyFoSy - fallopian tube patency test | 230 € |
| General anaesthesia | General anaesthesia | 150 € |
